APPLY FOR REINSTATEMENT

Men Brought From West Under
False Pretenses Now in
Pitiable Plight.

(By Associated Press.)

NEW YORK, March 11.—Realizing that their fight against the Interborough Company had been lost, the old employees of the subway and elevated railway to-day crowded the offices of the company seeking their former positions. Some 3,000 men applied for reinstatement, but not more than 800 were accepted, the officials claiming to be satisfied with the men who had enlisted them to break the strike, and announcing that in future the rules as to sobriety would be more strictly adhered to. All applicants were notified that they had to pass the physical examination, and go to work as new men, which means that those who went on strike would lose their seniority and the increased pay they had won for length of service. Messrs. Jonckheere and Pepper, the strike leaders, admitted that the fight had been lost, and advised the men to get back their positions if they could. As for themselves, the officers said they would not again work for the company. Mr. Jonckheere held the press responsible for the result, contending that the papers had aroused a hostile sentiment. The strikers bitterly denounce their leaders, saying the men were deceived by them.

The service on the subway and elevated systems has not yet reached the efficiency that prevailed before the strike, but the company promises more regularity and frequency of trains by Monday morning. Few accidents, and they of a trivial nature, occurred during the day.

In Pitiable Plight.

NEW YORK, March 11.—The men brought from their homes with the understanding that they were to receive big wages, and to assist in the opening up of a railroad near this city, several hundred skilled electric railroad men, from quite a number of Western cities, were brought here by agents of James Farley, the strike breaker. The men finding that they were really to be used as strike-breakers, quit their positions as soon as they could, and are now stranded, with no money to go to their homes. They are at a loss to know what to do.

Having no money, they are not only without food, but are compelled to sleep in the streets.

Their condition is pitiable. They walk all day in search of work, and sleep in hallways or any other place they can. It is said that a band of them propose to visit the Mayor and inform him of their plight.

HIS NOSE IN A VISE

Munyon's Paw-Paw and Inhaler Cured Him

A great sufferer of catarrh sent me a letter stating that he felt as though his nose was in a vise; that he had been unable to breathe through his nose for nearly three years. That he had had two operations and had been treated by a number of specialists, but every time he caught a cold the air passages of his nose became greatly inflamed and he was obliged to stop his work for a month. That there was constant dripping of mucus into his throat and stomach, and that he had noticed my advertisement claiming that my Paw-Paw and Inhaler would positively cure Catarrh, and with but little faith he concluded to make one more effort to get well; and much to his astonishment he began to improve after the first day, and although he has been using this treatment less than two weeks, he is now able to breathe through his nose, the Catarrhal discharge having almost ceased, and his hearing has been quite restored. This case is similar to thousands of others. Catarrh is not only a vice on the nose and air passages, but is a vice against good morals and good judgment. It is a vice to be sick from any disease if you can be cured. It is a vice to have a

My Inhaler sends clouds of medicated vapor to all the diseased parts that cannot be reached in any other way. It reaches the sore spots, heals the raw places and forms a new membrane. It positively kills all germs and stops all Catarrhal discharges. It sweetens the breath and prevents deafness.

Mr. Andrew J. Lettowich is still very ill at
his home, "Hawthorne," near Ashland.

Children are at home. It is thought the cause
of his sickness is due to the stopping of the
use of tobacco, as he is a man of sixty-seven
years old, after keeping up the habit over
since his boyhood days.

Mrs. P. H. Eubank received by phone the
news that her niece, Miss Beale Lettowich,

quite a number of young people for a worthy

off. The affair proved a thorough success,
both financially and socially, and the even-
ing was very pleasantly spent by all present.

ARE AT CITY'S DOORS

(Continued from First Page.)

when we live in the midst of sunshine
and fresh air. We realize the world over
will tell you that there is but one cure
for consumption, and that is plenty of
fresh air and sunshine, and I say we
must work for the good health of our
citizens and the cleanliness of our city."

Good for Richmond.

Mr. Joseph Wallerstein was the next
speaker.

Mr. Wallerstein said that seven years
ago he did his best, when a member of
the Council, to annex Manchester, and a
few years later attempted to annex the
outlying villages around Richmond. He
called attention to the fact that Rich-
mond at this time owes but six millions
in debt, and that the city has the right
to issue millions of bonds. He
further stated that taxes are lower in
this city than in any city in the State,
and lower than almost any great city
of the country, such as New York and
Albany, which are taxed 240 as against
Richmond's 140.

Turning to the mayor, Mr. Wallerstein
said:

"Mr. Mayor, our city owes six millions
dollars. Is it not a fact that we can sell
our water and gas works for more than
enough to pay our entire debt? We
would not have to sell our public build-
ings or parks or squares. Is this not so?"

The mayor replied:

"I could sell in the city of New York
the water and gas works for more than
enough to pay everything the city owes,
but we don't want to sell them."

Health and Cleanliness.

Dr. J. S. Horsley spoke in favor of
health and cleanliness. He said that in
Massachusetts and New York, on account
of the improvement in tenement houses
and the opening of play-grounds, tuber-
culosis has decreased 50 per cent, within
ten years, although Richmond is, on ac-
count of the density of population, at a
standstill, and that out of every seven
deaths in Richmond, one is from tuber-
culosis.

Dr. McGuire Newton stated that this
state of affairs was on account of the
lack of fresh, pure air.

"While in the rest of the country death
from tuberculosis is on the decline, here
in Richmond it is at a standstill at best."

Mr. John B. Minor moved that the en-
tire Committee of Progress attend the
meeting of the Chamber of Commerce on
annexation on Monday night. The motion
was unanimously carried. Each member
will wear a scarlet badge.

The chairman read a poem entitled
"How Did You Die?" He said that he
intended to have the poem printed and
sent to the members during the coming
fight for progress. The reading of the
poem was loudly cheered.

HOW DID YOU DIE?

Did you tackle the trouble that came your
way?

With a resolute heart and cheerful?
Or hid your face from the light of day
With a craven soul and fearful?

O, trouble's a ton, or a trouble's an
ounce,

Or a trouble is what you make it.
And it isn't the fact that you're hurt that
counts.

But only how did you die?
You are beaten to earth? Well, well,
what's that?

Come up with a smiling face.
It's nothing against you to fall down flat,
But to lie there—that's disgrace.

The harder you're thrown, why, the high-
er you bounce;
Be proud of your blackened eye!
It isn't the fact that you're licked that
counts.

It's how did you fight—and why?

And though you be done to the death,
what then?

If you battled the best you could,
If you played your part in the world of
men.

Why, the Critic will call it good.
Death comes with a crawl, or comes with
a pounce.

And whether he's slow or spry,
It isn't the fact that you're dead that
counts.

But only how did you die?

Dr. Carlisle spoke eloquently against
the present "vicious ward system," a
system that prevents co-operation.

Mr. Minor replied that he was on the
Committee on Streets of the Council, and
that he hoped within a week that the
iniquitous system would be done
away with.

He believed, he said, that the majority
of his committee was against the sys-
tem. He was interrupted by cries of
"Greater Richmond! Greater Richmond!"
